### ABOUT THE RAZAK SCHOOL OF GOVERNMENT

The Razak School of Government (RSOG), a distinctive leadership development institution was established on 30 July 2010 to propel the advancement of Malaysia's senior public sector leaders across all service sectors. As a strong proponent of effective and impactful leadership that necessitates continuous learning and development, RSOG designs and develops forward-thinking and practical leadership development programmes

### ABOUT THE PROGRAMME

Leadership remains one of the most discussed concepts. At its best, effective leadership has the power to create ripple effects across organisations that even permeates to driving positive changes in society. The legacy of good leadership is carried forward as it inspires new generations of leaders to embrace their potential, make ethical decisions and create a better world for others. Nevertheless, very few would be willing to take on this task. Leadership is often perceived as a rare quality possessed only by a select few. In truth, the ability to guide, inspire, influence and empower others towards a shared goal is one that can be nurtured. It is a skill that can be cultivated and refined through continuous learning, practice and self-reflection.

Razak School of Government's "Leader In You" programme invites emerging leaders to unlock their leadership potential by understanding the true purpose of leaders, to learn from the experience of others and to finally determine the unique leadership characteristic inherent in all of us.
